Comment: I object to this planning application for the following reasons:

We can consider

The building

- The local area is made up of beautiful historic buildings (including the train station itself), and the design of this development is plain and not in keeping with the local architecture.
- The building will block the views across to Hampton Court Palace and will be an eye sore in comparison.
- The development is toweringly higher than local buildings and densely packed.
- The development will bring more traffic that will increase the level of pollution in and already greatly polluted area
- Traffic is horrendous in this area already and this will only cause a further increase with no further road space. I do not believe the additional traffic lights will help and will only cause more traffic delays
- The parking in this area is already very poor and there a fewer parking spaces to deal with the increase. I highly doubt all of the additional people visiting the area will travel by train.
