Comment: The current plans are not in keeping with the beautiful Hampton Court train station building and will dwarf it in terms of size and the building height is too high. The character of any proposed building is paramount when it is so close to Hampton Court Palace and yet the proposed building looks ugly and soulless.

The proposed parking provision will not meet the required number of spaces with all the extra hotel guests, workers and residents and so will put huge pressure on surrounding roads, already at capacity.

Traffic congestion is already a huge problem in this area which will be exacerbated by this huge development.

The views across from and to Hampton Court Palace need to be protected. The local community and visitors would benefit from open green space as they arrive at the station, not ugly high rise buildings!!
