**Comment:** The area around HCStation is in real need of a tidy up and I welcome a good development there., but this plan is monstrous and I object to it.

Didn't the architect look around him at the Victorian station, the Tudor and Georgian Palace, sensitive redevelopments along Creek Road, Bridge Road and Hampton Court Way and try to match in? I cannot see it. It is just a featureless block upon block which does not fit in here. I feel you need to go back to the design stage with only 2 storey buildings, and more thoughtful plans for the windows as I am sure people who live there will want more privacy than those large windows on to such a busy road. will allow. The idea that council refuse lorries cannot fit safely for rubbish collections and a private firm will be used is a short term solution and highlights that too many properties are being built on too small a site.

I object
