Comment: I just wanted to comment on the side windows to the proposed store...it seems along bridge street they show into the store but along the main side which is a very well used road and area they give the appearance of being boarded up!! I understand that presumably you need the back wall retail space but that area coming into Walton already looks visually very unappealing and I think yet again this would be a visual mistake! Could there not at least be windows on both roads perhaps both halfway along or areas of wall space alternated with floor to ceiling windows? I think a lot of decisions the council is making at the moment are not taking into account the aesthetics of the town and how this really reflects on the people who chose to come and shop and live here! This 'boarded' up look will not benefit from pretty graphics or photographs of veg either!!! Windows into the store would really help this end of Walton! At present i have always felt it looks terrible and this is the chance to rectify and hopefully take attention away from the opposite side of the road!!!!
