Application number: 2018/3810

Application address: Jolly Boatman And Hampton Court Station Redevelopment Area, Hampton Court Way, East Molesey, Surrey, KT8 9AE

Name: Mr Summers

Address: 13 Parsons Mead, East Molesey, Surrey, KT8 9DT

Comment type: You object to the planning application

Date of comment: 03 Feb 2019

Comment: I leave others to comment on other aspects of the application; I refer to cycle provision & off road cycle paths only. The current cycle provision for the station is large but poorly laid out which means accessing several of the stands very difficult. Some are not undercover which makes them less usable. The proposed number appears to be significantly less which is contrary to creating sustainable modes of transport. There should be at least the same number of cycle stands for train users with easier access to all the stands + safe & secure cycle provision for the new uses on the site.

The opportunity should be taken to extend the current segregated cycle path on the east side of Hampton Court Way to cross in front of the station etc & access onto the current pavement on the east side of the bridge to then directly link into NCN4 towards Kingston. This avoids cyclists from the south having to cross the main road twice. A minor widening of the pavement will provide an off road pedestrian/cycle route as per the west side.

This will provide a major contribution to improving & enhancing the National cycling facility in the locality.
