Comment: Inadequate parking provision--just 2 extra spaces to present amount insufficient for 94 new homes plus an 84 bedroom hotel. Will impact on local area, especially East Molesey which is already used for free parking for Hampton Court station.

Do we need another hotel in the area? Possible later development into more flats?

Height and density of this development is excessive, dwarfing the railway station. The design of the buildings is block-like. Surely, bearing in mind the position of the development opposite Hampton Court Palace, an historically important heritage site something more sympathetic would be more appropriate.

Multiway traffic signals will increase the traffic queues through Molesey during peak weekday driving times and therefore pollution levels. Hampton Court bridge is already a bottleneck.

Impact on the infrastructure? School places? Doctors? Local potholed road conditions?
