Comment: I cannot believe that Alexpo should think that a development that looks like a multi storey car park is suitable for an historic site such as they propose. It is an eyesore and will completely obliterate the view of Hampton court palace and Bridge .
The developers only want to make money from this historic site. Not the local area which will be left blighted by this cheap development. Once done they will move on leaving this eyesore and the local area destroyed. This site deserves a decent architect to design a suitable development which would be in keeping with the surrounding area not a shoddy cheap nondescript development which they are applying for. the area deserves a better Quality development.
I have yet to meet anybody who is in favour of this development which is being foisted on local residents who deserve much better ? .
