Subject: Jolly Boatman and Hampton Court Station Redevelopment Area,
Hampton Court Way, East Molesey, Surrey 8 9AE. Planning Application
2018/3810

Follow Up Flag: Follow up
Flag Status: Completed

The recent amendments to the above application do not make the proposed development any more acceptable. The objections I put forward earlier (5 Feb) to this ill-conceived scheme still stand. Its height, density and ugliness would ruin this unique historic site for ever.

There is nothing in the proposals that would benefit the Molesey community. Indeed, it would harm local businesses and put intolerable strains on the existing infrastructure, while the massive increase in traffic around Hampton Court Bridge and Station and in local roads would cause horrendous congestion and pollution. Furthermore, the site itself is liable to flood; this would certainly affect an underground car park.

Surely it is the council's duty to protect our precious heritage and safeguard our environment for this and future generations? I urge it to refuse this grossly insensitive application from a greedy, uncaring off shore developer.
