**Comment:** Amended plans show no improvement for local community  
Scale of buildings too large and will create unpleasant chasm effect at station  
Insufficient parking space and unpleasant underground parking  
Traffic plan is worse than existing and additional traffic will create even more problems to already heavy traffic congestion  
No thought given to provide better pedestrian cycle and vehicle connections to East Molesey that will gain almost no benefit from this scheme.  
All traffic to new hotel, new dwellings and station will go right across Jolly Boatman site and will spoil what could be a significant open space opposite HC Palace  
Not against development but this development on this nationally important site should and could be much better.
