Application Ref: 2019/1219

Dear Ms Lavin,

We are writing to object to the planning application of a 15m high monopole and ancillary development.

This pole is considerably higher than the surrounding trees and buildings and planned to be erected right on our boarder wall.

This infrastructure is a) unsightly, b) not in-keeping with the area which is residential and c) in-between conservation zones and opposite a listed building.

As we do not have a high wall or sufficient screening this will directly affect our peaceful enjoyment of the garden which the residents have been improving for the enjoyment of all recently at considerable cost.

Please log our comments and our strong objection to this development.

Kind regards,

A large black rectangular redaction box covering the signature of Gerard & Eileen Firth.
