**Comment:** The proposed constructions will change the appearance of an iconic and historical area first and foremost which is detrimental to everyone's enjoyment of the area. However, my biggest and most concerning worry is of the traffic that will be created to an already choked area. I cannot convey how many hours of my life have been wasted sat at traffic trying to get across that bridge. Adding in hundreds of extra cars owned by new residents will severely worsen the situation, as well as the proposed traffic control features eg additional lights needed to control their access.
