Comment: I would just like to add my comments to this. I have been coming over to the area for years for either work or to spend time with friends. None of these plans seem to take the visual impact into consideration which I think is massively disappointing. Not to mention the over development of the area already. There are also potential effects on my friends and there neighbours houses. I dont think that it's correct to have such a high building that then also overlooks every ones garden. There will be a upturn in traffic which is already bad around the area and the negative impact on the wildlife in the area and the light pollution I think are all valid reasons why this decision needs to be rethought immediately.
