Comment: I object to the application primarily on the height of the construction and the fact that the application has been heavily amended from the proposals i saw in the summer. The development company suggested at the summer open day that top of the building would be approximately 40ft high when in fact it is more like 60 ft. This is substantially higher than the existing buildings and out of keeping with other buildings in the area. I also believe additional windows have been added overlooking gardens on Ember Farm Way. I think the site is ripe for development but the proposals are excessive. It should be scaled back.
