Comment: Sirs

As a household backing directly onto the proposed development we are objecting in the strongest possible terms. We should also add that we have only just received official notification of this project from Elmbridge Borough Council (received December 23rd) giving us just 3 days to officially respond. This is not acceptable and any deadlines to respond should be extended considerably because of this.

The basis of our objection is the sheer size and volume of the overall scheme - however due to lack of time given to respond we demand more time to consider our strongest possible objection.

It is widely accepted that Elmbridge Council planners are under a great deal of pressure to build more housing and to push back against NIMBY-ism, however this development oversteps the mark on so many levels, those of us who are directly affected and literally have this blight being proposed meters from our 'back yards', robbing us of daylight, direct sunlight and all privacy - this plan should be rejected immediately.
