**Comment:** Michael Gove promises "the right homes in the right place" and preservation of the character of communities yet these flats in addition to those already granted permission will completely change the character of the area negatively.

The Walton/Weybridge area is oversupplied with flats and needs family houses.

Traffic at this location is already congested and the huge increase in residences will exacerbate this. Proposed parking is inadequate and will overflow onto neighbouring streets, impacting the residents.

Medical practices, schools and recreational spaces are already stretched to breaking point and there do not seem to be any plans to address this.

There is really no justification for further increasing the number of flats at this location.
