Comment: I was concerned about 2020/0691 and so were so many locals . When it was refused we were happy that common sense had prevailed. But astounded that it was won on appeal. It now feels underhand and almost a lost task to write this objection. A feeling of powerlessness in the face of big business and influence.

These two new applications fail in our eyes for exactly the same reasons. As well as adding to the injury and fair minded approach to planning that the first application has given.

The application again does not allow for adequate parking. Adequate green space. Compensate for loss of trees and green overloads all local services as well as roads gives nothing back to the community from which it takes.

A better use of the two plots of land under consideration would be amenity land to pay something back into the community. Have amenity areas for all these flat dwellers to go!!

We also really need affordable housing for families and these developments do nothing towards that .

The needs of Society and residents should be placed before profit
