Comment: I objected to the previous phase of the development and was told you could not comment on road, services ,traffic congestion at a very congested point even without phase 1 overload. The number of these high buildings now all next to each other make the overall stretch a block of monoliths , overbearing and not in keeping with the general aspect in this area. Huge amounts of mature trees being demolished just when we try to increase the number of trees for or global warming issues by planting small saplings. Water pressure along Oatlands drive is terrible already. Any improvement in this planned. Has anybody not noticed just how bad the traffic is at this junction coming in from all directions. So you have done your duty, asked the public and as usual you will simply tick a box, done, and ignore these comments which I suspect you have heard so many times before and ignored.
