Comment: There is not the local infrastructure to support this development and the others that are on this section of road. Oatlands Drive is busy enough with excessive traffic towards the lights at the junction/bridge especially during rush hours and this will just exacerbate the current, excessive traffic issues and air pollution. Plus, this road is a cut through/diversion route whenever there are problems with M25/A3/M3, considering the Wisley interchange development this will add even more pressure.
