Comment: As a resident of nearby Ashley Close I believe the proposed building is too large for the area with little green space for residents and will destroy habitat for animals that reside nearby. There is limited parking which will cause nearby streets to be overwhelmed with flat residents trying to park. The flats are too expensive for first time buyers to stay in Walton. The massive environmental damage caused by destruction of existing buildings and use of building materials causes a huge strain on the earth and Co2 emissions and we should be repurposing existing buildings and using renewable energy and materials rather than building from scratch.
