Dear Madam/Sir

Re: Objections to planning request: 2022/2118, 2022/3796, 2023/0270

I would like to make my objection to the waves of additional planning requests relating to the expansion of the original development at 8-14 Oatlands Drive.

The development that is currently well underway will already compromise the outlook, contribute to traffic challenges and compromise the neighbourhood of the people living and travelling along Oatlands Drive. The additional planning requests to add 2 further developments seems horrific. A really heavy-handed mega-development, double the size of the one which already seemed insensitive. It's really sad for those of us who love this neighborhood.

Please decline the additional plans 2022/2118 (4-6 Oatlands Drive), 2022/3796 (16-18 Oatlands Drive) and the 2023/0270 (roof terraces). Also please deny the request for lift over-runs and smoke shafts. It feels to me as though this developer is trying to perform death by a thousands cuts to this lovely neighborhood community and I would ask that you please prevent this from happening.

Your sincerely

Chris Bell
