Dear Sir/Madam,

Thank you for consulting the Bat group regarding the above application. We have read the accompanying ecology report prepared by AAE and also the detailed response from the Surrey Wildlife Trust, whose comments we echo. In particular we are concerned about the inevitable light spill that would result from this development if it were allowed to continue in its present form and we have been shocked to see an example provided to us by a local resident of the lightspill emanating from a similar neighbouring development.
