Comment: I fully support the planning application. Padel is very popular and one of the fastest growing sports in the world and can be played by all ages and people, very low impact and amazing for fitness and physical health. The padel courts will be a great addition to St George's, expanding on its services to members who wants to get / keep fit, and attract younger members which the club needs to continue to be the great health club it is. From what I understand the courts will cause no obstruction, light or privacy issues, and any player noise from it will be minimal and perhaps even unnoticeable considering there are already tennis courts in close proximity. It therefore is highly unlikely to cause additional disruption to neighbouring properties.
