**Comment:** STGLTC prides itself as one of the most complete racket sports clubs in the SE. The club caters for all generations of players. Our junior program for Tennis & squash has produced national and international champions. With Padel being the fastest growing racket sport in the world and could be included in the world olympics by 2032, it will become - if not already so, a major attraction for the younger generations of today.

Padel at STGLTC is an essential addition to nurture the sport in the area and the club's plans have taken every measure to make sure it will have negligible impact on the beautiful surroundings. Its noise & acoustic studies show it to be well within acceptable parameters and should have no impact on the neighbours.

And I quote and reiterate a friend's comment earlier; The club is essential and additive to the utility and aesthetic attributes of the St George's Hill Estate. It pre-dates most of the existing properties on the Estate and must be allowed to develop in a way that is alive and sensitive to its neighbours, and the Estate more generally, which this proposal does completely.
