Comment: PLANNING APPLICATION 2023/0866

I am strongly supportive of the Proposal for 3 padel Courts at St. George's Hill Lawn Tennis Club. Padel is a fast growing sport which is enjoyed by young and old alike. It is a simple game – highly inclusive ,easily adopted by beginners and also enjoyed by those who play to a high standard. As a leading racquets club , St George's LTC should have Padel Courts on site to offer members the experience of this excellent sport and enjoy the benefits of exercise and healthy competition. The management at Ste George's Hill LTC have spent a great deal of time modifying the proposal to address understandable concerns that residents may have regarding noise levels. They have engaged an acoustic engineer to prepare a very thorough report which models the sound levels , based on data from existing padel courts . The Club has listened to these concerns regarding noise and modified both the location and design so that the current proposal for courts has a roof and sides. Hence they are classed as 'semi-enclosed'. It appears that the noise level outside the boundary of the club will remain low. The Noise Impact assessment is included in the club's submission.

I would endorse this high quality application
