Comment: StGHLTC is leading racquets club in the area which is now looking to include padel, the fastest growing sports in the world. The phenomenal growth padel in recent times can be attributed to its social nature as it is appealing to all age groups and skill levels, and serves to bring different groups of players together in a healthy and entertaining activity.

The site, structure and sensitive design of the facility ensures that noise is contained and well within acceptable limits, the facility is discreetly located, and it does not overlook any of the neighbouring properties.

The proposed development is not only consistent with the evolution of St George's Hill Lawn Tennis Club - but essential to its long term purpose as a community sporting venue.
