**Comment:** St Georges Hill Lawn Tennis Club is a leading tennis and squash club and is now looking to expand its racquet sports offering to include Padel, one of the fastest growing sports in the world. The sport is easy to start playing and therefore appeals to all ages and abilities bringing further interest to a healthy and fun activity for all the family.

The proposed location of the three courts and their structure as well as the considerate design of the facility ensures that noise is contained and well within acceptable limits. The courts will not overlook any of the neighbouring properties and are low maintenance once installed and will replace an existing grass tennis court that requires significant annual maintenance often with heavy machinery.

The proposed development is not only consistent with the evolution of St George's Hill Lawn Tennis Club - but essential to its long-term purpose as a community sporting venue.
