**Comment:** As with any community facility, St. Georges Hill Lawn Tennis club needs to continually adapt and improve it's facilities in order to maintain its attraction as a leading sporting facility within Elmbridge.

In years gone by, the club originally had a croquet section and swimming in the lake! As public demand shifted, the club responded with new facilities added in order to maintain it's appeal.

With padel as the fastest growing sport and with many other clubs further afield offering Padel as an alternative, the club is at risk of losing it appeal (and many members).

I believe the design submitted maintains a good balance between the desires of the members and minimising impact on those living in close vicinity to the club.
