**Comment:** I would like to add my full support to this application. The addition of padel courts to the tennis club is an absolute must. It is a brilliantly fun and inclusive sport that brings the family together. You don't have to be a tennis player to play padel and that makes for such a great game. My family loved playing padel when this was trialled at the Club previously.

Any concerns the neighbouring property owners may have about the introduction of padel courts is unwarranted, as this proposal includes acoustic screens in the design. The professional noise report concludes that these screens ensure there will be no impact on the near neighbours. In fact, many neighbours support this application.

As a leading racket sports venue, padel is the perfect addition to the Club. It must move with the times and give everyone, including the younger members a fun new sport to play.
