Comment: The addition of Padel courts would be a great asset to the community. It is probably the most inclusive racquet sport allowing people of all ages and capabilities to play. The trial court at the club was hugely popular and brought together the tennis and squash members as well as many new junior players. The club have gone to great lengths to minimise any adverse impact in the proposed design and the acoustic protective screens have successfully reduced any noise levels to below that which is already present from the tennis courts. Most local tennis clubs have added padel courts with great feedback from the community - i fully support this application.
