**Comment:** As one of the premium sports clubs in the region SGHLTC has continuously evolved to meet the ever changing needs of its members. The aging club house is now struggling to fulfill the extensive needs of the class and gym members so it is essential the new building is made available to offer a modern up to date environment with the latest equipment. In addition Padel is fast becoming the most significant racquet sport in the world with many sporting venues opening up courts- especially in the local area, where most clubs have been granted permission. It is imperative SGHLTC is also afforded this same opportunity to extend an extremely popular sport which will retain the club's competitiveness across the region moving into the future.
