Comment type: You object to the planning application

Date of comment: 28 May 2023

Comment: I wish to object to this application to build 3 relatively open construction padel courts on the grounds that, as currently proposed, they will cause unacceptable levels of noise and light pollution which will adversely affect the quality of life of the residents of a significant number of neighbouring properties as the courts will operate every day and late into the evening throughout the year.

The insistent, loud and fast staccato noise, resulting from this application, will be even greater than that of the more limited unacceptable trial run conducted by the applicant because of the larger number of courts proposed. Also this will affect a larger number of properties resulting in a significant loss of amenity to even more neighbours.

Permission should not be granted unless the applicant brings forward plans for fully enclosed courts thereby eliminating unacceptable levels of noise and light pollution in relation to neighbouring properties.
