**Comment:** Dear sir,

We object strongly about the potential development at the tennis club, on the basis of noise and extra vehicles entering and racing through the estate. On an estate of this size it is such a bad idea to have a tennis club with 4000 members. It cannot be sustained. If an application was put forward to develop in the Weybridge area one thing that would be looked at would be access to any development. If a increased tennis facility is needed in the Weybridge area then maybe a large piece of land should be acquired and give the youth the sports facility they need. Finally the tennis club agreed not to let the membership to exceed 2500. It is now at 4000. Obviously, we are dealing with people who have no principals and are only interested in profit. As we can see from the problems the world has as a whole greed is our biggest problem
