**Comment:** I object to this application on the basis of noise . The proposed Padel courts are adjacent to several residential properties within a wider residential estate . The courts are not fully enclosed and the noise emitted by Padel is especially intrusive especially in the context of the opening hours of the club . Those properties know they are next to a Tennis Club but Padel is a totally different prospect in terms of the type and intrusiveness of the noise emitted by the racquet and thus proposal should be rejected.
