Comment: The proposed development has an overbearing presence on the surrounding area which is riverside and green belt. It is too high density and will have a negative visual impact. There is lack of appropriate parking which will lead to road congestion which is currently at maximum levels. It is also being built on a floodplaine and will have a begative impact on nature and the riverside environment. Elmbridge has a unique nature but this will have a serious impact on the character of the neighbourhood.
