Comment: I highly object on the application above which is going add an overload to parking space and produce huge congestion in a very small neighborhood additionally Orchard Lane is highly residential and cars obstruct the road as it is even before any construction . Furthermore Orchard Lane is the main entrance to the newly developed project (Cala Homes) and the us will obstruct the entrance to this complex

Also the new development will significantly affect the green area in this region and reduce the natural sight .

Moreover, there will be a safety and security issue as well as environmental impact and a lot of loss of trees and green zones .

I highly object this project and as a physician also believe that there will a huge load on the health service and most of residence will be also in a difficult position finding NHS service .
