Comment: I object to this application for the following reasons ;

The proposed development is too dense and not in keeping with the neighbouring properties. Houses which back onto this development will be overlooked, the natural habitat of bats, hedgehogs, foxes and other wildlife will be lost. The parking on Orchard Lane is already very congested at the weekends and the parking at the development will not be sufficient as the majority of households now have at least one car. I feel the developers should strongly rethink the number of flats proposed and the height of the buildings as the environmental impact on an already overworked sewer system and highway safety will only lead to further issues.
