Comment: This development is hugely overbearing, impacting on the flood plane, loss of natural light, and the green belt in the area that has already been impacted by the development of the industrial area with an increase in people - impacting the footpaths that are maintained by the local neighborhood (not the Council!!) . Major tree loss, congestion in the roads in the area and major loss of privacy for those in the nearby roads. Additional impact on waste abandoned in the woods and footpaths.

The sewer system which is already overworked will be under more strain.

This should not be permitted under any circumstances.
