Comment: I object to the proposed development because it is totally out of keeping with the two story domestic buildings in the remainder of the road. The mass of the building is far too large and overpowering.

It will have a negative effect on the wildlife and flora of the river bank.

The additional traffic to and from the site will make this narrow road even busier and possibly more dangerous.

The water main installed by Chelsea Waterworks under the 1895 Act of Parliament cannot be built over or moved.
