Comment: I object to the development as it is overdevelopment. I note one more parking space has been added but it's still inadequate as many flats occupiers will have two cars, plus visitors etc. Oatlands Drive is already congested with traffic onto Walton Bridge and this brings more noise and air pollution before the adjacent blocks under construction have added their cars to the queues. I don't believe that water and sewage infrastructure can support all these additional flats. We are already suffering from pollution in the Thames from local treatment plants and water meters are now compulsory due to increased population in the South East and climate change.
