**Comment:** There is a certain style and 'feel' to this area, and from everything we can see about this proposal it's totally out of sync with both. Destroying 25 years of natural woodland, and its associated impact on wildlife, only to implant a series of buildings totally at odds with all those surrounding them.

The second point is the traffic impact. Claygate Lane is a nightmare at the best of times. Incredibly busy, and that only increases with footfall from the two adjacent Hinchley Wood schools. That has a knock on effect on Chesterfield Avenue and Cumberland Drive, both regularly congested with parked cars, and others trying to weave in and out of them. The last thing anyone needs in this area is increased traffic problems.

Thank for your consideration.
