**Comment:** I object to the above development as I have several concerns. Firstly, Claygate Lane suffers from excessive water run off after heavy rain and I would be concerned extra surface run off would compound this problem. Secondly I am concerned about the loss of extensive trees and shrubs and also the loss of wildlife and their habitats. For example, I am sure there are many nesting birds in the area and we also get bats flying in our garden in the Summer. Has the whole area been adequately evaluated to ensure no loss of bat habitats?
