Comment: This application is not only unnecessary but will be incredibly detrimental to all surrounding existing residents and, more worryingly, the local environment. This is a wonderfully preserved natural space with dozens of living trees. At a time when we should be doing our best to preserve biodiversity it would be a complete travesty for this application to go ahead. More properties of the kind being applied for here are simply not necessary in this area: it might be different were what's proposed to involve affordable housing, but as it does not, such wanton destruction of the local environment has no justification.
