**Comment:** This land should be designated as an SSSI to safeguard and restore the last fragments of precious habitats we have. This is a stated government priority to help combat climate change and should be taken into account. Regardless of this it is cramming more houses into an area that is already over developed and is not in keeping with the housing in the area It will negatively impact the houses adjoining the development site (noise, being overlooked, access, parking, through traffic) and create more traffic dangers near to the Hinchley Wood Schools.
