Comment: I would like to object to the proposed development because it is not in keeping with the existing structure and nature of housing within Hinchley Wood. The new properties would be crammed into the area awkwardly sandwiched in between 1930's houses, they do not appear to have any private gardens with all lawn areas being communal and there would be significant destruction of both mature trees and shrubs. So, an area that has been free of human inhabitants for over 25 years offering a small haven for wildlife and vegetation in an already densely populated area will be totally lost. The additional pressure on facilities and amenities and the cramped nature of the proposal will all lower the quality of life for existing and new residents. The culture and nature of Hinchley Wood will be lost forever. There will be significantly increased traffic coming out onto Claygate Lane in front of the schools which already has traffic calming measures. This can not be good for safety let alone congestion, noise and pollution.
