Comment: I object to the development for a number of reasons. The impact the size of the development will have on our already inadequate infrastructure. you keep allowing all this developing yet do nothing about bringing the size of the drs or dentist up to date. Where are all the new residents going to park. Will that be the surrounding roads. Which are already full. Where will the workmen park while this development is being built. The development is on a corner where the footpath is the main walk way for two schools, this will not be safe for children to walk or cycle to school on that side. Resulting in people driving their children to school and causing more traffic congestion. I understand old buildings have to be replaced but How can you consider replacing a bungalow and a Shop and some garages with 26 dwellings a bin store and parking. When will these huge developments stop. What's next the garage opposite then the allotments. It's like one big housing estate. That corner can not possibly have such a big development without it impacting hugely on the residents of all the surrounding roads. And on the town's infrastructure.
