Comment: This application is a real concern.

The road is a known rat run/cut through as it is and is subject to grid lock on a daily basis. It is already a problem that needs addressing and additional traffic from new residents and construction vehicles cannot even be considered as feasible to manage.

We have noticed increased parking of non residential vehicles on Leigh Road in recent years and it is now as bad as it's ever been. Cars and vans are regularly parked across our drive way, creating very dangerous black spots when reversing out of our drive.

There have been numerous incidents of near misses caused by this with our children in the car. These will get worse if this development occurs.

This application is ill conceived at best and suggests the applicants are scraping the barrel for land to develop.
