Comment: My comments on the previous application still stand , this is too large a build for the high street, the height of the building and the encroachment onto the footpath is just not acceptable or in keeping with the current street scene.

Whilst I accept that Heath buildings is dated do what a lot of councils and developers are doing and refurbished the current space , far more environmentally friendly and better all round for the residents of the surrounding areas who will sadly be effected by this development of the council allow it to go ahead.

The developer is looking to turn a profit not thinking about the local community and the environment . Please Elmbridge take heed of what local people are saying not people on a database who have been spammed ...
