Comment: We continue to object to this proposal.

It is still too large (with less than 2% height reduction compared to the previous application) also the scale and mass completely unacceptable for our high street, with a reduction in pavement inappropriate for safety reasons.

The reduction in retail space provided must actually reduce local economic activity not provide the boost noted in the application.

There is insufficient parking provision for the number of flats proposed which will cause further poor and dangerous car-parking in an area used by many pedestrians and school children.
