Comment: This application is very similar to the previous application. It is very tall and will have a major impact on Oxshott high street where it is out of keeping with the rest of the buildings. It will encroach on a small area that provides sanctuary from the major road that passes through the village. It is much taller than the existing building and will have a detrimental impact on the feel of the whole area. At its rear the development will be significantly taller than the existing building, dominating the adjoining homes. This is also completely out of keeping with the surrounding area, would be overbearing and would result in a loss of privacy for local properties.

There is a general concern about the damage the proposed development would have on the existing trees in the area since the proposed car park is below the existing foundations
