Comment: The development is far too intensive for such a small site. Opposite the school which is already a very busy road will simply add to congestion and extra traffic and parking. The entrance to the site being right opposite the school adds potential dangers to school children crossing what is already a busy road, clearly something that does not appear to have been taken into account on this application. Exiting the site will be very problematical during school drop off and pick up times when additional parking on Claygate Lane will block sight lines along the road. The development offering flats is not in line with the surrounding areas which are all detached or semi detached houses. This development should be rejected and a more sympathetic smaller development considered.
